

A technical cross-section diagram of a building assembly. On the left, a light blue rectangular shaft is labeled 'SK06 SHAFT' and '4 m²'. To its right is a wall with a grey diamond-patterned insulation layer. A vertical pipe is shown passing through the wall. A callout line points from the left towards the shaft. The shaft is bounded by a thick black line on the left and a thinner black line on the right. The wall is bounded by a thin black line on the left and a thick black line on the right. The insulation layer is between these two black lines. The pipe is located to the right of the insulation layer.
