

The floor plan illustrates the layout of the B6 wing, divided into four main sections:

- B6.4 (Green):** Located in the upper right, this section contains numerous patient rooms (e.g., 16301, 16302, 16303), ward emergency medicine rooms (e.g., 16304, 16305), and a central corridor (SR102.03 Ward emergency medicine).
- B6.5 (Orange):** Located in the upper left, this section includes a secondary electrical room (SR701.04), a kitchen washing room (SR385), and various storage and utility rooms.
- B6.6 (Purple):** Occupies the central and lower portions of the plan. It features a large central corridor (SR102.03 Ward emergency medicine), multiple patient rooms (e.g., 16301, 16302, 16303), and a central area labeled B6.6A containing a reception area (SR102.03 Ward emergency medicine) and a waiting area (SR102.03 Ward emergency medicine).
- B6.3A (Red):** Located in the lower right, this section includes a reception area (SR102.03 Ward emergency medicine), a waiting area (SR102.03 Ward emergency medicine), and a central corridor (SR102.03 Ward emergency medicine).

The plan also shows various other rooms such as laboratories (e.g., 16301, 16302), storage rooms (e.g., 16301, 16302), and utility rooms (e.g., 16301, 16302). The layout is complex, with many rooms and corridors, and is designed to provide a comprehensive view of the B6 wing's architecture.

The floor plan illustrates the layout of the B6 wing, divided into four main sections:

- B6.4 (Green):** Located in the upper right, this section includes a large ward area with multiple patient rooms, a central corridor, and a reception area. It also features a large open space labeled "B6.4".
- B6.5 (Orange):** Located in the upper left, this section contains a ward area with patient rooms, a central corridor, and a reception area. It also features a large open space labeled "B6.5A".
- B6.6 (Purple):** Located in the lower left, this section includes a ward area with patient rooms, a central corridor, and a reception area. It also features a large open space labeled "B6.6".
- B6.3A (Red):** Located in the lower right, this section contains a ward area with patient rooms, a central corridor, and a reception area. It also features a large open space labeled "B6.3A".

The plan shows a complex network of corridors connecting these sections, as well as various service areas, including a central corridor, a reception area, and a large open space. The rooms are labeled with their respective numbers and functions, such as "SR102.03 Ward emergency medicine" and "SR105 Patient Toilet".

The floor plan illustrates the layout of the B6 wing, divided into four main sections:

- B6.4 (Green):** Located in the upper right, this section includes a large ward area with multiple patient rooms, a central corridor, and a reception area. It also features a large open space labeled "B6.4" in green.
- B6.5 (Orange):** Located in the upper left, this section contains a ward area with patient rooms, a central corridor, and a reception area. It also features a large open space labeled "B6.5" in orange.
- B6.6 (Purple):** Located in the lower left, this section includes a ward area with patient rooms, a central corridor, and a reception area. It also features a large open space labeled "B6.6" in purple.
- B6.3A (Red):** Located in the lower right, this section contains a ward area with patient rooms, a central corridor, and a reception area. It also features a large open space labeled "B6.3A" in red.

The plan shows a complex network of corridors connecting these sections, as well as various service areas, including a central corridor, a reception area, and a large open space. The rooms are labeled with their respective numbers and names, such as "SR102.03 Ward emergency medicine" and "SR102.03 Ward emergency medicine".
