

1.009
X-FELT
17 m²

This is a technical architectural section drawing of a wall assembly. The central component is a large yellow rectangle labeled '1.009 X-FELT 17 m²'. To its right is a vertical grey hatched strip. To its left is a vertical white area with diagonal hatching. The top and bottom of the assembly are defined by horizontal lines and hatching patterns, representing different material layers or structural elements. The drawing uses standard architectural conventions for material representation and labeling.
