

2.004  
**SWITCH**  
23 m<sup>2</sup>

This floor plan shows a facility divided into three main rooms: a SWITCH room (2.004) on the left, a PSNET room (2.006) in the center, and an AUTOMATION room (2.008) on the right. The SWITCH room contains three rectangular equipment units. The PSNET room contains one rectangular unit and a small gas supply area (2.006.1) at the bottom right. The AUTOMATION room is empty except for a small rectangular unit at the top. The rooms are separated by walls, and there are openings at the bottom of the plan, possibly for doors or ventilation. The entire area is shaded in light blue.
